Code team

Moin! I'm Charlie the Dev Beaver.
I love clean code and a great developer experience.

pouchdb-hoodie-api: use `.changes()` for events

admin.sessions.add({username}) fails with Not Found

npm start -- console

Run setup in `npm install --save hoodie` posthook script

npm start -- setup

Design team

¿Qué tal? I'm the Design Alpaca. I care about accessibility and ease of use of our websites and apps.

What could be a useful UI for `/hoodie/account`?

What could be a useful UI for `/hoodie/store`?

What could be a useful UI for `/hoodie`

What could be a useful UI if an app has no `public/` folder

Update Twitter, background and avatar

Docs team

Docs docs docs! I'm the Docs Chicken and I make sure that all our code is well documented.

No issues right now, check back later!

Editorial team

Salut! We have lots of good stories here at Hoodie, I love to share them!
